

# Ground rules for working together

## All members will be...

- **OPEN:** By building a fruitful learning environment where practices and lessons are shared openly
- **MUTUALLY SUPPORTIVE:** By applying partnership principles in our work, including: encouraging participation, acting transparently, supporting capacity building of all members, reviewing joint work and sharing our learning
- **PRACTICAL:** By responding to 'real-life' issues, concerns and challenges faced by members
- **BRAVE:** By incorporating learning derived from both 'what works' and 'what does not'
- **COMMITTED:** By adhering to the ECoPP work plan and schedule of activities

# And of course....

We will also aim to have fun as  
we learn together!

Thank you!
